# CYLINDER CARTS & RACKS

## LAYERED M6 SIZE CYLINDERS

Layered M6 type cylinders carts and racks are designed for easy storing of full and empty cylinders in the same unit. Constructed of heavy gauge square tubing, round bar, large 5" casters with locks and convenient full length push handles. These specially designed shelves are dirt and dust collection free and when moisture is present these shelves allow for free air flow drying.

- Designed to Hold M6 Cylinders No Greater than 3 1/4" in Diameter
- Each unit is Individually Boxed – Some Assembly Required
- Caution Always Load Cylinders Carefully

#### \*Optional Locking Steel Doors

The carts and racks on page 10B-2 & 3 can be equipped with heavy-duty lockable steel doors that help prevent theft and provides some security against the misuse of cylinder gas when padlocked. • Units equipped with doors for delivery purposes and when securely strapped within a vehicle comply with current D.O.T. CFR 49 requirements.

#### Optional Bumper Guard Kit Available for M6 Size Cylinders

These cylinder racks and carts can be adapted with the newly designed and PATENT PENDING plastic bumper guards that easily snap into place and will not come off unless they are physically removed.

- These guards protect the cylinder from scratching and marring of special coatings and paint.
- Eliminates the clanging of cylinders against a metal surface.

# CYLINDER TRUCKS

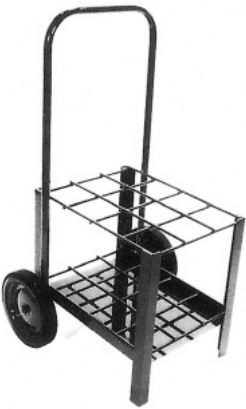

## MULTIPLE D & E SIZE CYLINDER TRUCKS

The ultimate in durability, these units are designed for applications where multiple D & E size cylinder transport, storage or manifolding is required. Individual spacing, positive cylinder placement, and weight distribution allows for easy handling on stairs or irregular surfaces. The all welded construction of angle iron and steel round bar insures greater durability and strength.

# CYLINDER STANDS

## LARGE SINGLE CYLINDER STANDS

The CBR-STANDS are new concepts in cylinder floor stand designs. *No more* damaged floors or carpets from rusty cylinder bottoms. *No more* lifting heavy stands up over the top of cylinders. *No more* damaged gauges or regulators. *No more* unsafe cylinder stand “ride up” due to unsafe thumb screws. The cylinder may be rolled on or off with ease and firmly locked in place, or quickly released by our Exclusive Cylinder Placement Band and large plastic turning knob. These stands will accommodate any cylinder from 9” to 9 1/2” in diameter.
